Statements

Evidence

All of this data is confidential and classified. Sorry, it can't be put up on the website. In general, we looked at the data that Dave Stevens obtained and reduced from the BUSD SASI data. There was a lot of personal data however there were two points that clearly state we are doing something:

- 1) the average gpa of our freshman class = 2.74
- 2) there were no F's and only one D in IMP 1

Equity goal: All students who came in at IMP 1 will be able to meet the minimum UC college math requirement by their senior year.
