

Unfortunately there were only two parents and two teachers who attended the April Leadership Council. Therefore there was no quorum. The agenda was reviewed, but no actions could be taken.

The last leadership council for the year will be on Thursday, May 1st. We will be deciding on program changes for next year, reviewing staffing changes, and setting plans for summer work.

This summer our space will be under construction, and we will be dismantling our computer lab. We are getting considerable new computer resources and will need assistance from our families as we organize ourselves to best utilize this major technology upgrade.
